POLYMER DECORATIVE PROFILES

2026 COLLECTION

antprofiles.com

Ant Profiles

Ant Profiles was founded in 2002. Its modern production facility in Antalya manufactures PVC and polymer-based decorative wall coverings, polyurethane mouldings and skirting boards. Its factory in Bursa produces PVC marble panels.

Ant Profiles specialises in decorative wall solutions for interior and exterior spaces. Combining appearance with functionality, it produces lightweight, durable and long-lasting products. Its PVC marble panels, wall mouldings, LED lighting profiles, skirting boards and innovative surface coverings help customers turn their living and working spaces into the environments they envision.

Ant Profiles closely follows developments in its sector and invests in innovative technologies. Through research and development, it develops new products and continuously improves its existing range.

Ant Profiles aims to be a leading brand in its sector, adding aesthetic value to every space and offering solutions that maximise user satisfaction. With a strong dealer network and export potential in Turkey and abroad, it continues to grow its brand globally.

Ant Profiles

POLYMER PRODUCT FEATURES

POLYMER FORMULA
Ant Profiles uses a special polymer formula.

PAINTABLE
Products with a white surface can be painted.

EASY INSTALLATION
The interlocking structure makes installation easy.

ANTIBACTERIAL
Resistant to mould, fungi and bacteria.

CUTTABLE
The polymer structure allows cutting.

WATER AND MOISTURE RESISTANT
The foils and hard outer surface resist water and moisture.

ADHESIVE INSTALLATION
Silicone sealant can be used to bond the product to the intended surface.

ENVIRONMENTALLY FRIENDLY
Harmless to living beings, hygienic and free of unpleasant odours.

IMPACT RESISTANT
The hard outer surface and flexible structure resist impacts.

RECYCLABLE
At the end of its service life, it can be processed into new products.
